MEMORANDUM FOR: [REDACTED]
Intell Liaison Officer, DDS&T

SUBJECT: Policy-making Papers

1. Reference our telephone conversation of 3 September 1968, attached hereto is a listing of papers prepared in the Office of Special Activities that could be considered as having contributed to policy-making processes between 1 January and 31 August 1968. By nature of its role as a collector of intelligence, OSA cannot contribute as significantly to policy-making as compared, for example, to the evaluator of intelligence information or the producer of substantive intelligence. For that reason the attached listing contains only ten items.

2. The papers listed in the attachment are identified by subject, date and control number, followed by a brief summary of its content.
